

Historic Henry County Courthouse “Market and Re-use Plan”

The Southside Business Technology Center (SBTC) in partnership with Virginia Tech is excited to work with the Martinsville and Henry County Historical Society to conduct a “Market and Re-use Plan” for the Historic Henry County Courthouse in Uptown Martinsville.

With input from the community, the SBTC will create a strategy that will address important questions pertaining to the courthouse uses, tenants, management and staffing structure and funding for operations.

Your input is welcome.

If you would like to participate in the interviewing process of this “Market and Re-use Plan,” please call Stere Mergeani of the SBTC at 638-2523 ext. 325 by Monday, March 5, 2007.
